Results of the first nine months 2011 and outlook
Group results 9 months 2011

Business development of the segments and outlook

Appendix
Leap in earnings and margin improvement compared with the same period in the previous year

- Sales rose by 10.9 percent to 383.9 million euros, high demand from semiconductor and automotive industry
- Group EBIT at 34.9 million euros substantially increased, EBIT margin of the first nine months at 9.1 percent
- Order intake rose by 25 percent to 513.7 million euros compared with previous year, several major orders in Defense & Civil Systems segment
- Cash flow from operating activities of almost 40 million euros
- Net debt remained below 90 million euros; shareholders’ equity ratio increased to 47.8 percent
Jenoptik Group – strong sales growth abroad; future focus on Asia and North America

- Increase in group sales was mainly generated abroad
- Bundling of activities in Asia through groupwide structures

* Others: in 2010 characterized by delivery of major traffic safety order
## Income statement 9 months 2011: Substantial margin improvement

  - 30.09.11: 102.0
Lasers & Optical Systems
Future development of business

Lasers & Material Processing:
- EBIT in first nine months 2011 improved compared with previous year, which is also due to more efficient production structures
- Approx. 10 million euros will be invested in laser production as a result of high customer demand (capacity expansion)
- Further internationalization with focus on Asia and North America
  - e.g. opening of representative office in Shanghai in December 2011
- First orders for fiber lasers and systems for 3D metal processing
- Growth in selected niche markets of material processing and medical technology expected

Optical Systems:
- Division benefited from good sales with semiconductor industry in generating sales and earnings in first nine months 2011
  - Significant earnings increase supported by improved cost structures
  - Normalization in the semiconductor cycle
- Jenoptik profits from retrofit business in the semiconductor area
- Winning of new key accounts and customers outside the semiconductor industry (e.g. medical technology, defense)
- Expansion of system business
Metrology: continuing high demand from automotive industry
Metrology
Future development of business

Industrial Metrology:
- Sales, EBIT and order intake rose in first nine months 2011 as a result of high demand from automotive industry
  - Optimized cost structures are reflected in results
  - Continuing high demand from automotive industry expected
  - Jenoptik may profit from various trends in the automotive area, e.g.
    - Down sizing
    - 3-cylinder engines
    - Hybrid drives

Traffic Solutions:
- Stable development in the basic business in first nine months 2011; in previous year accounting of a major order in the 3rd quarter
- Major order of more than 20 million euros from Saudi-Arabia will contribute to sales and earnings partly in Q4/2011 and for the most part in 2012
- Positive development in acquisition of other major orders
- Trend to major projects with larger software and service share; further development of own software
Defense & Civil Systems:
High order backlog ensures stable and profitable development

* without Jena-Optronik
Defense & Civil Systems
Future development of business

Defense & Civil Systems:

- In first nine months 2011:
  - Stable business development with new and more market-oriented structures
  - PUMA orders of approx. 70 million euros in total contributed to high order intake, Book-to-bill-ratio at 1.42
  - Investment in production of energy systems due to high demand (approx. 8 million euros in total)
  - Build-up of international business, e.g. establishment of Jenoptik Defense Inc.
  - Market environment characterized by major orders and long-term customer relationships
  - Growing share of products for civil markets (e.g. Airbus) and establishment of business abroad helps to compensate for budget cuts in the defense area

Sales 2012

Stable development

Stable development
Group forecast for 2011: sales are expected to come in at around 525 million euros, Group EBIT at approx. 44 million euros.

Sales and earnings
- Positive development in 4th quarter 2011 expected, in particular in automotive industry; supplies to the semiconductor industry are on a good level within semiconductor cycle
- Sales at approx. 525 million euros
- Group EBIT at approx. 44 million euros
- Continuation of the Jenoptik Excellence Program:
  - 2011 additional savings in the upper one-digit million euro range
  - Further improvements in purchasing and inventory management

Financial position
- Issue of a promissory note with a volume of 90 million euros – repayment of guaranteed loans and other loans becoming due within the next twelve months
- Basic financing for operating business ensured for the next five years
- Lower interest expenses from 2012
Group results 9 months 2011
