At present, it is not possible to reliably assess to what extent the spread of SARS-CoV-2 will affect Jenoptik’s business in the current fiscal year. The forecast made by the Executive Board in the Annual Report was based on the knowledge at the time of preparing the report resp. at the date of publishing the preliminary figures at the beginning of February, and is, therefore, subject to change. In view of the current situation, the Executive Board is expecting noticeable impacts at least in the first half of the year.

This presentation can contain forward-looking statements that are based on current expectations and certain assumptions of the management of the Jenoptik Group. A variety of known and unknown risks, uncertainties and other factors can cause the actual results, the financial situation, the development or the performance of the company to be materially different from the announced forward-looking statements. Such factors can be, among others, pandemic diseases, changes in currency exchange rates and interest rates, the introduction of competing products or the change of the business strategy. The company does not assume any obligation to update such forward-looking statements in the light of future developments.
