

MORE LIGHT

Environmental and industrial safety policy

Our environmental, health and industrial safety policy serves all employees as a guideline for their daily actions.

The management of the division Light & Production pledges to protect the environment as well as the health, safety and well-being of our employees as an important part of company policy.

The basis of our environmental and industrial safety policy is consistent adherence to all relevant laws, rules and regulations.

We use modern technologies to consistently improve environmental protection and industrial safety.

We systematically include aspects of industrial, health and environmental protection in our company decisions. We always consider the complete use cycle of all products that we buy and sell.

We use our integrated quality, environmental and industrial safety management system to control our predefined goals. Employees, labor representatives as well as partners are involved in our activities. Consistently pursuing predefined goals is an essential part of our integrated management system.

We consider active and preventive environmental, industrial safety and health protection to be an essential management task. With ongoing training as well as open communication, we ensure that our employees identify with our environmental and industrial safety policy.

The necessary expenditures for health and safety requirements will be planned and provided
