To the management teams of our customers

Information regarding Regulation (EC) No. 1907/2006 (REACH)

Dear Sir/Madam,

Our statement below is intended to clarify our position with regard to Regulation (EC) No. 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) that came into force on June 1, 2007.

JENOPTIK Automatisierungstechnik GmbH develops 3D laser machines that are integrated into customers' production lines as part of process optimization and automation work. These machines are used to process plastics, metals and leather with maximum efficiency, precision and safety.

We are not a producer or importer of substances in articles as defined in REACH Article 7. There are no substances from the SVHC candidate list ("Candidate list of substances of very high concern") as set out in REACH Article 59 and specified by the European Chemicals Agency (ECHA) contained in articles that will be released under normal or reasonably foreseeable conditions of use, nor are any of these substances present in articles above a concentration of 0.1% of the weight percentage per product.

The current candidate list in accordance with Article 59 (1, 10) of Regulation (EC) No. 1907/2006 (REACH) has been published on the European Chemicals Agency (ECHA) website:

<https://echa.europa.eu/candidate-list-table>

Furthermore, we hereby declare that in accordance with REACH Article 33, the articles we provide do not contain any substances on the SVHC candidate list at a concentration above 0.1% of the weight percentage per product. We check the SVHC candidate list on a regular basis. Details regarding substances are based on information provided by our suppliers. In addition, our code of conduct for suppliers requires our contract partners to comply with environmental legislation.

Environmental protection is a fixed component of our corporate activities. As a responsible company, Jenoptik is extremely interested in engaging in a cooperative business relationship with you as our customers. Please note that we will only reply to individual, customer-specific REACH questionnaires with this standardized response.

Jena, 20th March 2017

Kind regards,

Volkmar Hauser
Managing Director

Mathias Wolpiansky
Managing Director
